# Improving Children's Lives

At FLEXA we bring joy to families around the world with our furniture, textiles, and toys, all designed to improve your child's life.

## Our mission is to:

- ◆ Provide children with better Sleep
- ◆ Develop children through Play
- ◆ Support children when they Study

Our products are designed in Denmark and incorporate the highest standards of safety and quality. They are made from long-lasting, environmentally friendly materials and are purposely designed to grow with children as their needs change.

## FLEXA SINCE 1972

The very first FLEXA bed was crafted by hand in 1972. Like some of our furniture today, the bed was made from natural Scandinavian pinewood. The name "FLEXA" was chosen to illustrate the flexibility of the design, as the bed could be reconfigured to suit a child's changing needs.

Today, parents all over the world can shop at FLEXA, for solutions in Sleep, Play and Study, for their babies, toddlers, children, and tweens – both online and in their local FLEXA shop.

# Environmental Sustainability Programme

## — FLEXA Grow Green

*These are the first initiatives on our journey to achieving CO<sup>2</sup> neutrality.*

### **Certified Wood**

We value the environment and use FSC™ and PEFC™ certified wood in our production.

### **Recycling Timber**

We recycle all waste wood in our production and use leftover sawdust to heat our factories.

### **Sustainable Surface Treatments**

We only use safe and healthy surface treatments.

### **Recycled Cardboard**

We strive to use only recycled package material.

### **Green Energy**

Since 2022 we only use green energy in our own factories.

### **Reducing Our Plastic Footprint**

We are outphasing plastics parts and packaging material.

### **Supply Chain Sustainability**

Our products are packaged to optimise transport in order to ensure a low impact on the environment.

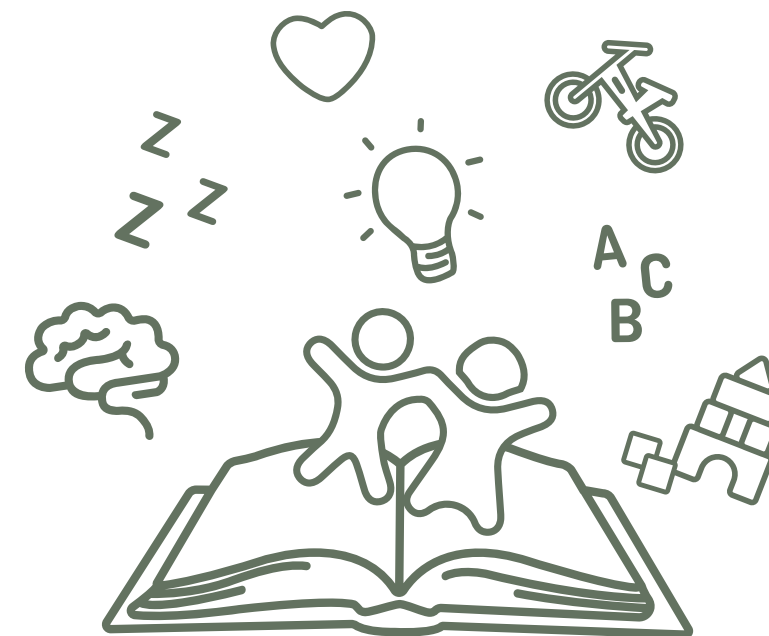

# Sleep, Play, Study

## Introduction

*Children's development is dear to us, and we want to help ensure a healthy and natural development for children all over the world.*

That's why all FLEXA products are purposely designed to grow with children as their needs change, provide them with better sleep, develop them through play, and ensure them the best conditions for studying.

To create a safe and stimulating environment for children and support a balanced development, the FLEXA Sleep collection helps children to UNWIND, RECHARGE, and DREAM. The FLEXA Play collection encourages children to MOVE, CREATE, IMAGINE, and EXPLORE, and the FLEXA Study collection allows children to TRY, LEARN, and GROW.

# FLEXA Insight

FLEXA Insight is an online parenting platform where parents from all over the world can get inspired by valuable insights, tips, and new ideas from our passionate, Danish team of experts in children's development.

Our group of experts has researched children's development from almost every angle. One expert is an experienced family advisor who has met hundreds of Danish families. Another expert has dedicated his entire life to researching children's well-being and development through play. And some of the other experts specialise in children's motor skills, sensory integration, and learning.

Together, they will inspire parents to provide children with better Sleep, develop them through Play, and support them when they Study.

# FLEXA Sleep

## — *Creating Childhood Dreams*

Well-rested children are healthier and happier, and quality sleep boosts their ability to focus and learn, handle challenges, and thrive in childhood. That's why we strive to give every child of any age the best possible conditions for a great night's sleep.

We do this by developing and designing a full collection of beds, mattresses, duvets, and pillows that fit the different needs of growing children. All our products are created with great attention to detail, using only long-lasting, quality materials that are free from any harmful substances to make sure we provide the very best framework for a safe and healthy sleeping environment.

The FLEXA Sleep collection helps children to UNWIND, RECHARGE, and DREAM.

### **Why FLEXA Sleep**

- ◆ Flexible bed systems and space-saving solutions
- ◆ Optimal comfort and ergonomic support for growing children
- ◆ Modern Scandinavian design and calming colour schemes
- ◆ Meets EU's strictest safety and quality requirements
- ◆ Designed in Denmark

Every FLEXA Sleep product is especially developed and designed to help children UNWIND, RECHARGE, and DREAM.

## UNWIND

Encouraging children to slow down before bedtime

Unwinding takes time after a long day, and even the busiest, little explorers will need some quiet downtime and a chance to pause and relax without any tasks or expectations.

Helping your child feel calm, stay stress free, and fall asleep faster.

## RECHARGE

Helping children process all the impressions of the day

Quality sleep is essential for children's development and one of the brain's most important building blocks. After a great night of slumber, the little sleepyheads will be ready to explore the world, play, and learn new things.

Allowing your child's body and mind to recharge.

## DREAM

Giving children the best conditions for a peaceful night's sleep

Encouraging healthy sleeping habits and providing a safe and comfortable space of their own where little ones can snuggle up and feel free to go on adventures – both in their dreams and during the day.

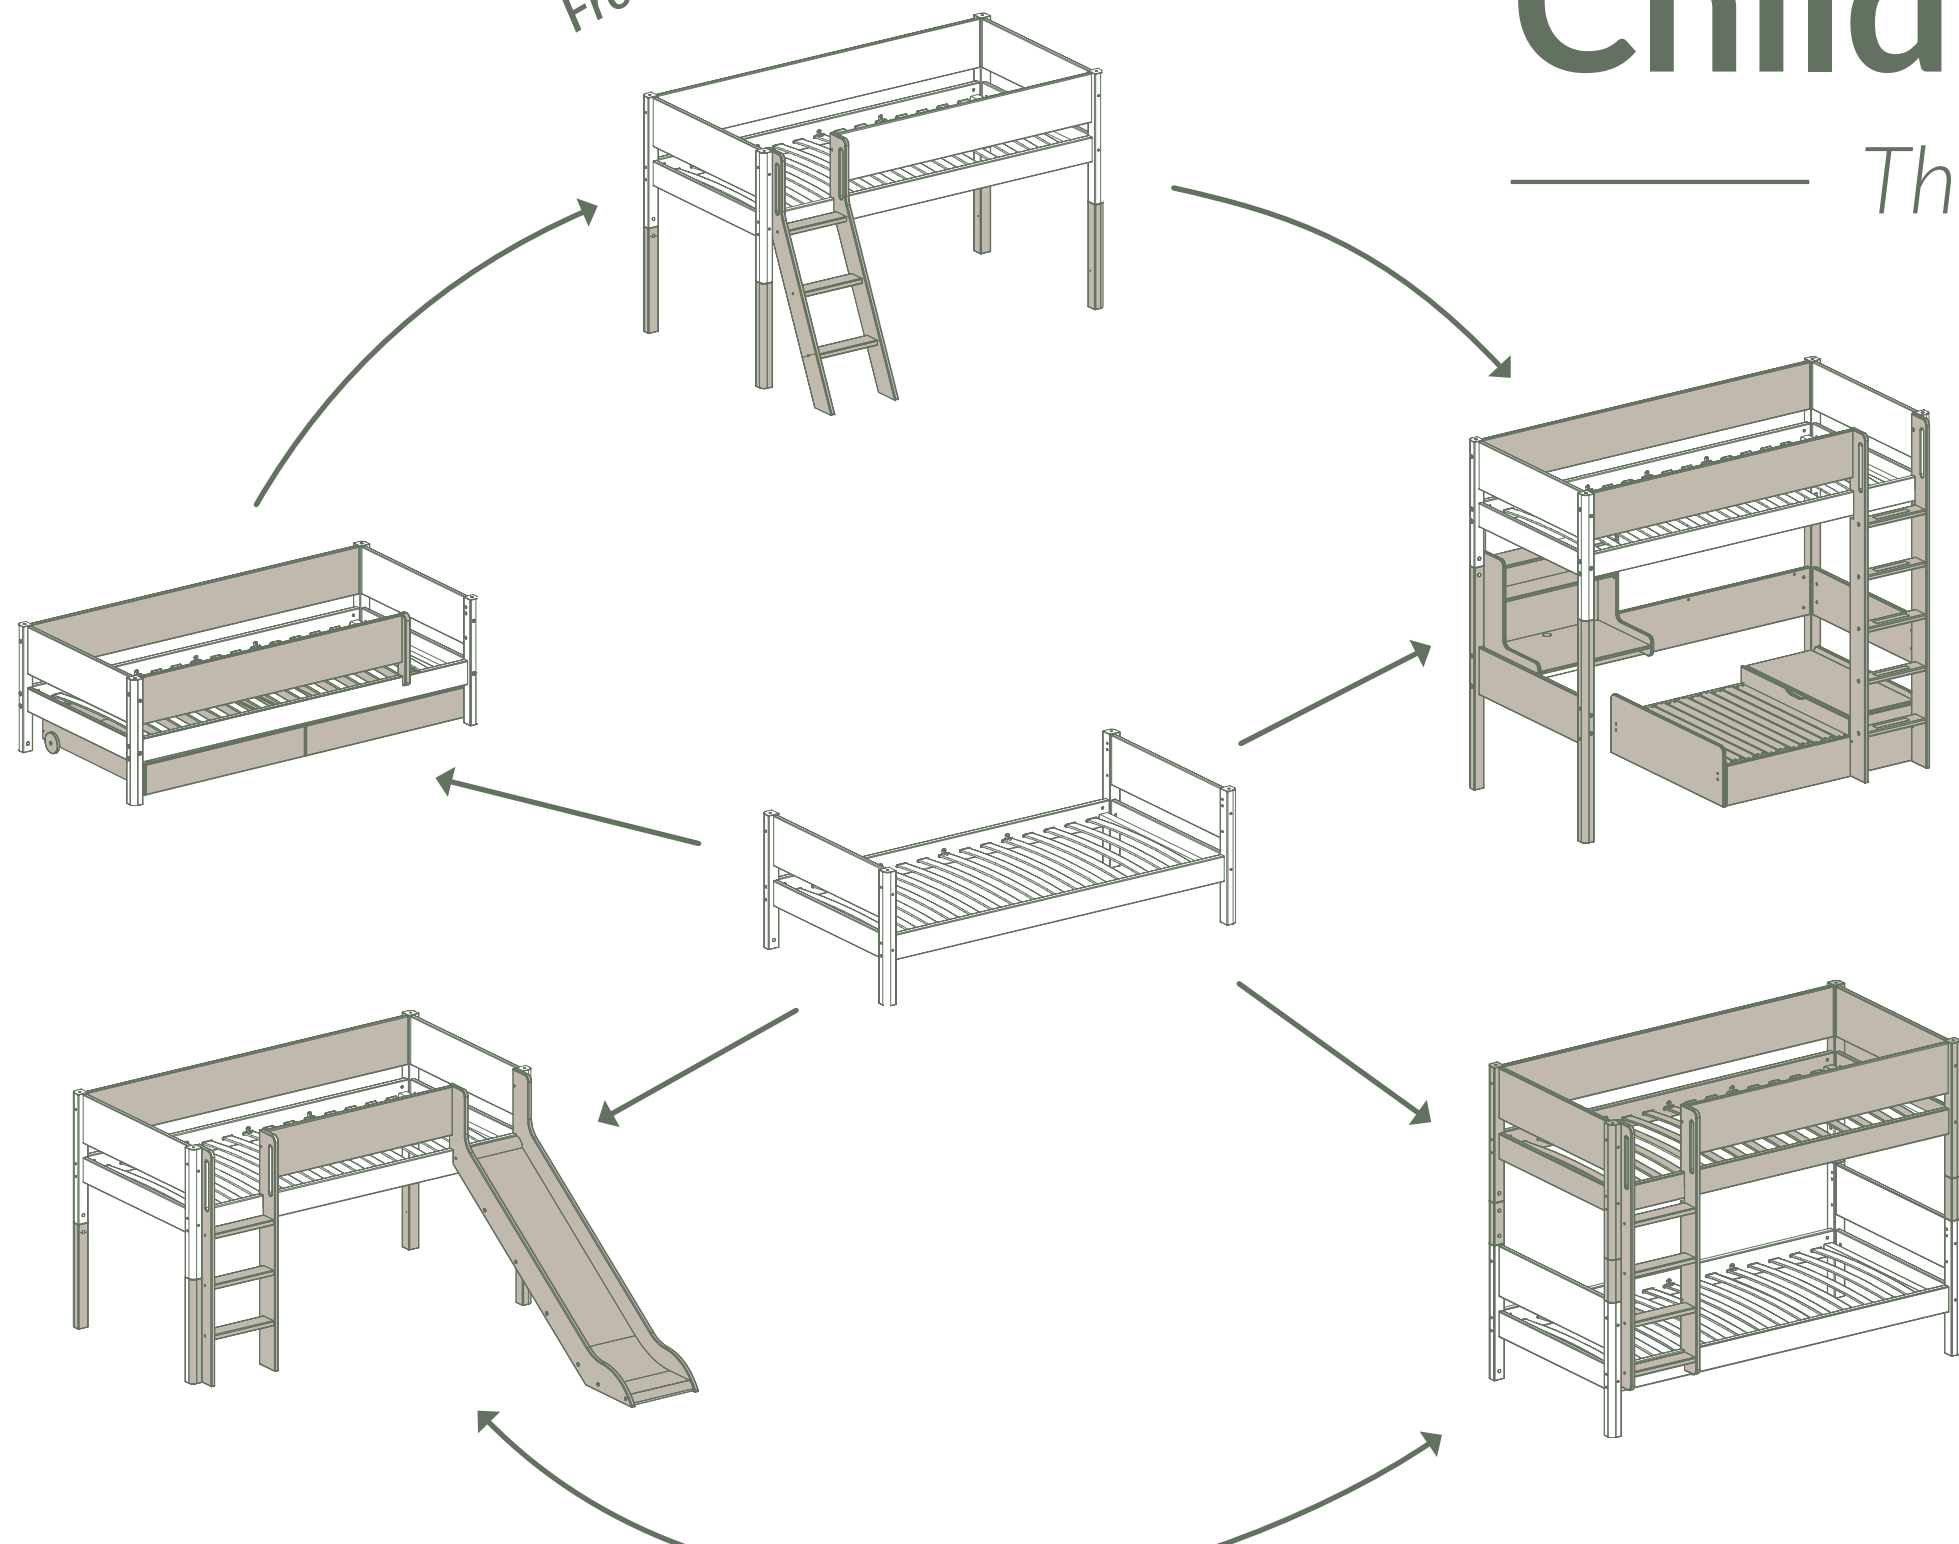

Helping your child grow, physically and mentally.

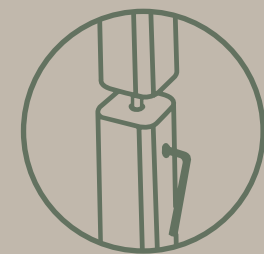

# Because Children Grow

*The FLEXA Bed System*

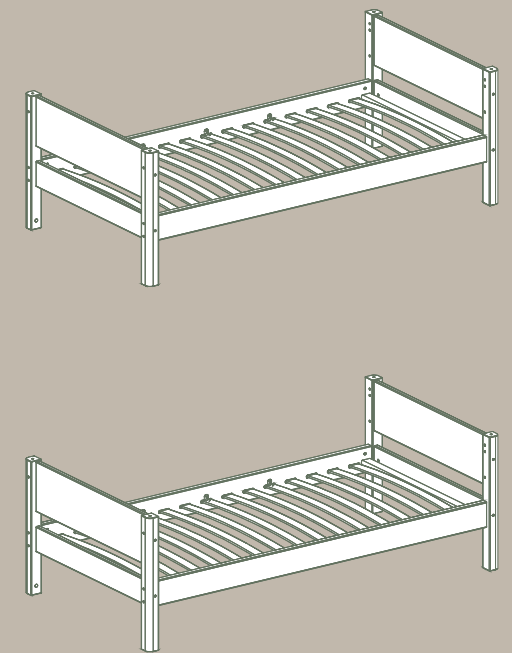

*From toddler to tween...*

*...and expanding families*

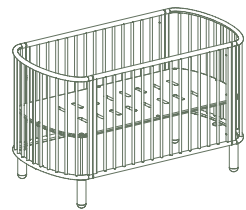

You can easily rebuild the bed to fit the changing needs of your growing child

# FLEXA

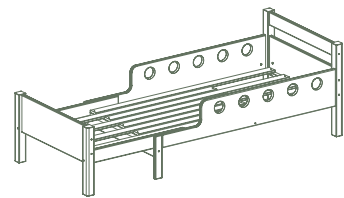

# Bed Guide

— Growing Together

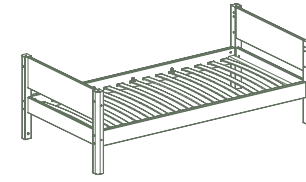

### Baby Cots

At FLEXA we recommend a cot from when the child is born up until the age of 3 where a junior bed or a single bed can be used.

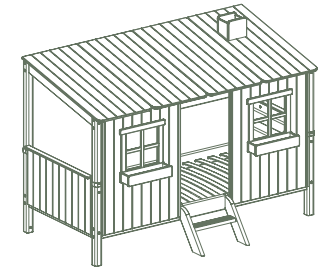

### Junior Beds

A junior bed is a great transitional bed for toddlers since it is a smaller version of a single bed. The junior beds are both easy and safe for children to crawl in and out of and they will love the feeling of having more space to move around.

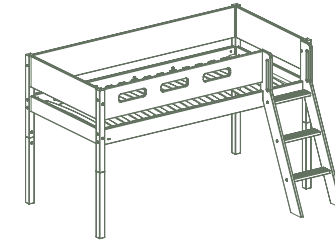

### Low Beds

From the age of 3 a single bed can be chosen. Most children will love having a big bed like their parents that offers many new opportunities for play and fun. Safety rails can be added when the child is still little and then be removed when no longer needed.

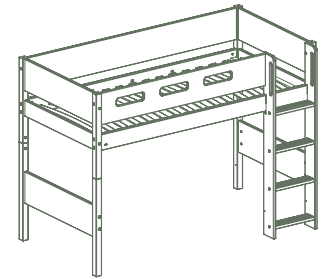

### House Beds

A house bed is great for children from the age of 3 who want to add some extra playfulness to their room. Let your child sleep in their own little house and provide them with a safe, private, and fun space.

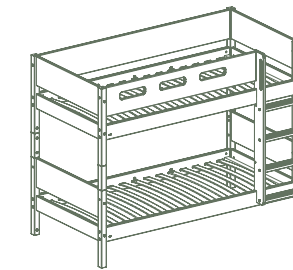

### Mid-High Beds

FLEXA mid-high beds are lifted from the ground and are a good middle way between a single bed and a high bed. Perfect for active children from the age of 6 and up.

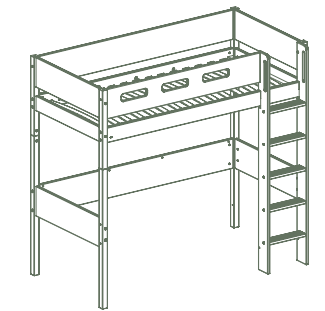

### Semi-High Beds

The semi-high beds are slightly taller than the mid-highs and lower than the high beds. We recommend the semi-high beds from the age of 6.

### Bunk Beds

A bunk bed is perfect for shared rooms. Smaller children from the age of 3 can sleep in the lower bunk with a safety rail and their bigger siblings from the age of 8 can sleep in the top bunk.

### High Beds

As children get older their needs change. From the age of 8 they will be spending way more time playing outside the bed than in it and therefore a high bed can be recommended. FLEXA high beds are 180 cm tall making space for storage, a desk or a play area underneath.

# Find the Right Mattress

## The FLEXA Matress

A mattress with 3 cm latex with cool gel on one side, 5 cm cold foam in the middle, and 4 cm latex on the other side. Latex with air ducts provides good ventilation and transports moisture away from the body. The mattress is reversible to secure the right support for the growing child. Start by using the side with the 3 cm of latex. When the child reaches 40 kg, it's time to turn the mattress.

Suitable for children with sensitive skin or allergies.

## FLEXA Latex

A mattress with 6 cm latex and 6 cm cold foam on each side. Latex with air ducts provides good ventilation and transports moisture away from the body. The mattress adapts to the child's body, and it has a water-repellent, non-woven inner cover.

Suitable for children with sensitive skin or allergies.

## FLEXA Foam

A mattress with 12 cm premium foam and a zone landscape that adjusts to the movements of the child. The foam mattress has good ventilation which prevents the child from overheating. It has a non-woven, antibacterial and water-repellent inner cover.

## FLEXA Spring

A mattress that consists of 218 springs per m<sup>2</sup>. Surrounded by 3 cm soft flexible cold foam to ensure increased comfort for the child. The mattress has good ventilation which prevents the child from overheating. It has a water-repellent, non-woven inner cover.

Provides the right support for children over 50 kg.

# ...and the Right Cover

## Cotton Cover

Perfect for most children. The cover has a soft surface, and it's made of 100% natural materials for reinforced breathability that can help regulate the child's body temperature throughout the night.

## Bamboo Cover

Perfect for children with sensitive skin or allergies. The cover has a silky soft surface, and the fabric has antibacterial properties, which helps create a nice, hygienic sleeping environment.

## Eucalyptus Cover

Perfect for children who tend to sleep hot. The cover has a cooling effect and can help transport heat away from the body and absorb moisture, ensuring that the sleeping environment stays dry and comfortable.

# Children's Duvets & Pillows

*Our duvets and pillows are designed to provide the best possible sleep for growing children by ensuring optimal temperature and comfort all night long.*

The down filling is soft, airy, and flexible so children can mould, hug, or snuggle into the duvets and pillows just the way they like it.

All our duvets and pillows are OEKO-TEX® certified, made using natural, quality materials that are free from any harmful substances to make sure we provide the very best framework for a safe and healthy sleeping environment for children.

# The Textile Collection

## — Colourful Textiles

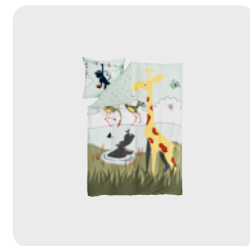

Decorating with textiles gives children the possibility to put their own personal touch on their room. A play curtain or a cave with a fun and playful print can inspire hours of imaginative play and bed linen in their favourite colour can help turn their bed into their happy place.

All our textiles are OEKO-TEX® certified and comply with EU's strictest product safety standards, so parents can be sure that providing children with FLEXA textiles is stimulating and safe.

# FLEXA Play

## — More than Just Toys

At FLEXA, we want to improve children's lives. Our focus is to ensure a healthy and natural development through play for children across the globe. And so, our toys are created with the most recent knowledge of children's development in mind.

They are made from FSC™ certified wood and have rounded edges for comfort and safety. The FLEXA Play family of toys encourage children to MOVE, CREATE, IMAGINE, and EXPLORE.

### Why FLEXA Play

- ◆ Especially selected and designed to support children's development
- ◆ Calming colour scheme to avoid overstimulation
- ◆ Rounded edges for comfort and safety
- ◆ Made from FSC™ certified wood
- ◆ Designed in Denmark

Every FLEXA Play product is designed to encourage children to **MOVE**, **CREATE**, **IMAGINE** or **EXPLORE**.

## MOVE

Encouraging children's movement through play

Crawling, walking, running, jumping, gross motor skills

Improving your child's physical condition and balance

## CREATE

Helping children develop a creative mindset

Creativity, thinking outside the box, expressing oneself

Inspiring your child to experiment with new ideas

## IMAGINE

Giving children the freedom to use their imagination

Dreaming, being curious and empathetic

Evolving your child's social skills, language skills and integrity

## EXPLORE

Stimulating children's cognitive development

Focusing, concentrating, reasoning, fine motor skills

Developing your child's ability to concentrate and think logically

# FLEXA Study

## — Try, Learn, Grow

At FLEXA, we want to improve children's lives. We wish to help children grow, nurture their interests, and develop new skills - right from their first big day of school to their teenage years.

We do this by offering a full study collection of ergonomic designs – desks, chairs, and accessories. Clever features such as tilting surfaces and adjustable heights offer good ergonomic support for little students and let them switch position easily, helping them stay focused and energised.

The FLEXA Study collection allows children to TRY, LEARN, and GROW.

### Why FLEXA Study

- ◆ Ergonomic design to give children the best conditions for learning
- ◆ Made to fit the changing needs of growing children
- ◆ Calm colours and timeless finish
- ◆ Created from long-lasting, quality materials
- ◆ Rounded corners for extra comfort and safety

Every FLEXA Study product is especially selected and designed to allow children to TRY, LEARN, and GROW.

## TRY

Encouraging children to challenge themselves.

When children are motivated, inspired and curious, they get new ideas, develop their skills and unfold their creativity.

For children who try their best.

## LEARN

Giving children the best conditions for studying.

When children are ergonomically supported, able to switch position and feeling comfortable, it's easier for them to focus, concentrate and learn.

For children with many questions that need answers.

## GROW

Allowing children to grow both physically and cognitively.

When children develop a skill or learn something new, they grow. Physically, children also grow quickly, and that's why our furniture grows with them.

For children who grow up in the blink of an eye.
